Deployed on BNB Smart Chain mainnet

Educational blockchain reference project • Non-financial • No token sale • No fundraising • No investment claims

Short Description

Quazenthor (QWBQ) is a fixed-supply BEP-20 token deployed on the BNB Smart Chain mainnet as a public technical reference implementation. It enables real blockchain interaction with standard BEP-20 functions including transfers, approvals, allowance validation, and event observation. Educational distribution is performed manually and is fully transparent on-chain. The contract is immutable and contains no minting, burning, taxation, or upgradeability mechanisms.
